CONCORD PUBLIC INFORMATIONAL MEETING
PAVEMENT AND BRIDGE REHABILITATION ON 1.6 MILES OF I-393

The New Hampshire Department of Transportation announces a combined Public Officials/Public Informational Meeting will be held on Thursday, March 14, 2002 on the planned pavement and bridge rehabilitation along approximately 1.6 miles of Interstate 393.

This project begins at the western end of I-393 at North Main Street in Concord and proceeds east on I-393 to just west of Exit 2, connecting to a separate bridge and pavement rehabilitation project on I-393 in Concord and Pembroke that began last year. It consists of pavement rehabilitation, the rehabilitation of seven bridges, improvements to drainage and high-mast lighting, and the replacement of guardrail and signs.

The March 14 meeting to display the current concept and obtain public input will be held at the Concord City Council Chambers, 37 Green Street, Concord, New Hampshire at 7:00 p.m., followed by a question and comment period.
